#### 2050 and 4000 SERIES BOARD INFORMATION

The information enclosed is intended to provide field engineers with a quick reference on the application and patching requirements of all p.c.b.'s manufactured for 2050 and 4000 series machines.

All boards are in numerical order with an index giving brief details and page references.

Every effort has been made to ensure the information contained is accurate and up to date. Updates and ammendments will be periodically issued when necessary. It would be of some assistance if engineers could feed back details on the enclosed forms, any errors found or useful ammendments ... etc. that may help others.

The forms should be sent to:
